If YOU were there...

It’s 1829, and you live in Washington, D.C. You’ve come with a friend to the party for Andrew Jackson’s inauguration as president. Your friend admires Jackson as a man of the people. You are less sure about his ability. Jackson’s inauguration soon turns into a rowdy party, as mobs crowd into the White House. They break glasses and overturn the furniture.

How would you feel about having Jackson as your president?

Expansion of Democracy

America in the early 1800s was changing fast. In the North, workshops run by the craftspeople who owned them were being replaced by large-scale factories owned by businesspeople and staffed by hired workers. In the South, small family farms began to give way to large cotton plantations, owned by wealthy white people and worked by enslaved African Americans. Wealth seemed to be concentrating into fewer hands. Many ordinary Americans felt left behind.

These same people also began to believe they were losing power in their government. In the late 1700s some Americans thought that government was best managed by wealthy, property-owning men. Government policies seemed targeted to help build the power of these people. The result was a growing belief that the wealthy were tightening their grip on power in the United States.

Hoping for change, small farmers, frontier settlers, and slaveholders rallied behind reform-minded Andrew Jackson, the popular hero of the War of 1812 and presidential candidate in the 1824 election. They believed Jackson would defend the rights of the common people.
people and the slave states. And they had been bitterly disappointed in the way Jackson had lost the 1824 election because of the decision in the House of Representatives.

During the Age of Jackson, many democratic reforms were made. Some states changed their qualifications for voters to grant more white males suffrage. The revised rules, however, usually excluded free blacks from voting as they had been allowed under original state constitutions. Political parties began holding public nominating conventions, where party members choose the party’s candidates instead of the party leaders. This period of expanding democracy in the 1820s and 1830s later became known as Jacksonian Democracy.

**Democracy in Action**

Democracy spread in the early 1800s as more people became active in politics. Many of these people lived in the new western states. In these mostly rural areas, a political rally could be as simple as neighboring farmers meeting to talk about the issues of the day, as the farmers in the painting on the right are doing.

During the early 1800s democracy and demonstrations blossomed in the United States. The demonstrators of today owe much to the Americans of Andrew Jackson’s time. Today, political rallies are a familiar sight in communities all over the country.

**Election of 1828**

Jackson supporters were determined that their candidate would win the 1828 election. They formed the Democratic Party to support Jackson’s candidacy. Many people who backed President Adams began calling themselves National Republicans.

The 1828 presidential contest was a rematch of the 1824 election. Once again, John Quincy Adams faced Andrew Jackson. Jackson chose John C. Calhoun as his vice presidential running mate.

**The Campaign**

The 1828 campaign focused a great deal on the candidates’ personalities. Jackson’s campaigners described him as a war hero who had been born poor and rose to success through his own hard work.
Adams was a Harvard graduate whose father had been the second U.S. president. Jackson’s supporters described Adams as being out of touch with everyday people. Even a fan of Adams agreed that he was “as cold as a lump of ice.” In turn, Adams’s supporters said Jackson was hot tempered, crude, and ill-equipped to be president of the United States. When the ballots were counted, Jackson had defeated Adams, winning a record number of popular votes.

Jackson’s supporters saw his victory as a win for the common people. A crowd cheered outside the Capitol as he took his oath of office, then followed Jackson to a party on the White House lawn. The few police officers on hand had difficulty controlling the partygoers.

As president, Jackson rewarded some of his supporters with government jobs. This spoils system — the practice of giving government jobs to political backers — comes from the saying “to the victor belong the spoils [valued goods] of the enemy.”

Secretary of State Martin Van Buren was one of Jackson’s strongest allies in his official cabinet. President Jackson also relied a great deal on his Kitchen Cabinet, an informal group of trusted advisers who sometimes met in the White House kitchen.
